

Special Event Invitation

We would like to invite you to a Special Event at the Apple Store, Biltmore. We will be hosting “Tips on Building Your Own BYOD Program”, presented by Attorneys Neal Bookspan and Laura Rogal from the firm Jaburg|Wilk.

iOS devices are a great foundation for an employee-owned device program because you can easily manage company information without compromising the user-friendly iOS experience.

Learn how to:

- **Establish a BYOD policy.**
- **Security and Device Management.**
- **Make the User Experience Great.**

Please RSVP if you would like to attend.

More information

Bring Your Own Device (BYOD) programs are thriving in companies everywhere, thanks to the popularity of iPhone, iPad, and the powerful iOS platform.

With a few key approaches, you can easily implement a program that increases productivity, reduces risk, and keeps proprietary information safe.
